Email  _____________________________________________________________@ umn.edu Alternate Email                                                      @  ______________________

Current Major _________________________________________________________________ Proposed Major _________________________________________________________

(If different from current major)

Official notification of the decision will be sent to the email address given above. Students who are reinstated will be readmitted on probation and must meet with an academic advisor prior to registering for courses. Readmission is not guaranteed and only those students who demonstrate that they have given careful consideration to how they have and/or will change their behaviors or circumstances will be considered. Review the information on z.umn.edu/CSEexemptions for more details about what should be included with your petition.

**Instructions:**

- Write a complete statement explaining your request for readmission. You must describe the barriers that prevented your success, explain in detail your plan for improvement, and include a list of courses you plan to take the semester you wish to return.

- The Medical Supplement form should be used, if applicable, to document a medical or disability condition. The Medical Supplement form is available at onestop.umn.edu/forms (under “Appeals & Petitions”).

- Include unofficial transcripts from all institutions you attended, if any, during your suspension (excluding UMN).
